1.10 Proposal Organization and Format

1.11 Proprietary Information

All restrictions on the use of data contained within a proposal and all confidential information must be clearly stated on the Required Form – Attachment B “Designation of Confidential and Proprietary Information”. Proprietary information submitted in a proposal, or in response to the RFP, will be handled in accordance with the applicable Wisconsin State Statute(s).

To the extent permitted by law, it is the intention of Dane County to withhold the contents of the proposal from public view until such times as competitive or bargaining reasons no longer require non-disclosure, in the opinion of Dane County. At that time, all proposals will be available for review in accordance with the Wisconsin Open Records Law.

1.12 Cooperative Purchasing

Participating in cooperative purchasing gives vendors opportunities for additional sales without additional bidding. Municipalities use the service to expedite purchases. A “municipality” is defined as any county, city, village, town, school district, board of school directors, sewer district, drainage district, vocational, technical and adult education district, or any other public body having authority to award public contracts (s. 16.70(8), Wis. Stats.). Federally recognized Indian tribes and bands in this state may participate in cooperative purchasing with the state or any municipality under ss. 66.0301(1) and (20, Wis. Stats.

On the Vendor Information page, you will have the opportunity to participate in allowing other municipalities to piggyback this bid. Participation is not mandatory. A vendor’s decision on participating in this service has no effect on awarding the bid.

Dane County is not a party to these purchases or any dispute arising from these purchases and is not liable for delivery or payment of any of these purchases.

1.13 Vendor Registration Program:

All proposers are strongly encouraged to be a registered vendor with Dane County. Registering allows vendors an opportunity to receive notifications for solicitations issued by the County and provides the County with up-to-date company contact information.

Provide your Dane County Vendor # in the Vendor Information section of the proposal submission packet.

For Non-Registered Vendors:

Complete vendor registration by visiting www.danepurchasing.com. On the top menu bar, click Vendor Registration and then click Create Vendor Account. You will receive an email confirmation once your account is created and again when your vendor registration is complete. Retain your user name/email address and password for ease of re-registration in future years. Within 2-4 days of completing the registration, a vendor number will be assigned and emailed to you.

For Registered Vendors:

Check to make sure your vendor information including commodity codes is up-to-date by signing into your account at www.danepurchasing.com. On the top menu bar, click Vendor Registration and then click Vendor Log In.

1.14 Local Purchasing Ordinance

Under County ordinances, a Local Vendor is defined as a supplier or provider of equipment, materials, supplies or services that has an established place of business within the County of Dane. An established place of business means a physical office, plant or other facility. A post office box address does not qualify a vendor as a Local Vendor.

County ordinance provides that a local vendor automatically receive five points toward the evaluation score.

Vendors located within the counties adjacent to Dane County (Columbia, Dodge, Green, Iowa, Jefferson, Rock, Sauk) automatically receive two points toward the evaluation score.

1.15 Dane County Sustainability Principles

On October 18, 2012, the Dane County Board of Supervisors adopted Resolution 103, 2012-2013 establishing the following sustainability principles for the county:

- Reduce and eventually eliminate Dane County government's contribution to fossil fuel dependence and to wasteful use of scarce metals and minerals;
- Reduce and eventually eliminate Dane County government's contribution to dependence upon persistent chemicals and wasteful use of synthetic substances;
- Reduce and eventually eliminate Dane County government's contribution to encroachment upon nature and harm to life-sustaining ecosystems (e.g., land, water, wildlife, forest, soil, ecosystems);
- Reduce and eventually eliminate Dane County government's contribution to conditions that undermine people's ability to meet their basic human needs.

1.16 Fair Labor Practice Certification

Dane County Ord. 25.09 (1) is as follows:

(28) BIDDER RESPONSIBILITY. (a) Any bid, application or proposal for any contract with the county, including public works contracts regulated under chapter 40, shall include a certification indicating whether the bidder has been found by the National Labor Relations Board (NLRB) or the Wisconsin Employment Relations Committee (WERC) to have violated any statute or regulation regarding labor standards or relations within the last seven years. The purchasing manager shall investigate any such finding

SECTION 1 – GENERAL INFORMATION

and make a recommendation to the committee, which shall determine whether the conduct resulting in the finding affects the bidder's responsibility to perform the contract.

If you indicated that you have been found by the NLRB or WERC to have such a violation, you must include a copy of any relevant information regarding such violation with your proposal, bid or application.

Additional information can be found using the following links: www.nlr.gov and <http://werc.wi.gov>.

SECTION 2 – PROPOSAL SELECTION AND AWARD PROCESS

2.0 PROPOSAL SELECTION AND AWARD PROCESS

2.1 Preliminary Evaluation

The proposals will first be reviewed to determine if requirements in Section 1 and Section 4 are met. Failure to meet mandatory requirements will result in the proposal being rejected. In the event that all vendors do not meet one or more of the mandatory requirements, the County reserves the right to continue the evaluation of the proposals and to select the proposal which most closely meets the requirements specified in this RFP.

2.2 Proposal Scoring

Accepted proposals will be reviewed by an evaluation team and scored against the stated criteria. This scoring will determine the ranking of vendors based upon their written proposals. If the team determines that it is in the best interest of the County to require oral presentations, the highest-ranking vendors will be invited to make such presentations. Those vendors that participate in the interview process will then be scored, and the final ranking will be made based upon those scores.

2.3 Oral Presentations/Interview

Top ranked selected proposers may be required to make oral interview presentations and/or site visits to supplement their proposals, if requested by the County. The County will make every reasonable attempt to schedule each presentation at a time and location that is agreeable to the proposer. Failure of a proposer to conduct a presentation to the County on the date scheduled may result in rejection of the vendor's proposal.

2.4 Demonstrations

Top-scoring vendor(s) may be required to install and demonstrate its product(s) and/or service(s) at a County site. Product(s) being demonstrated must be delivered to the County site upon two (2) weeks notice by the County to the vendor(s) and must be installed and ready for the demonstration within one (1) week of delivery. The County will furnish detailed specifications concerning the demonstration site and the particular test it will use to exercise the vendor's product(s) and/or service(s). Failure of a vendor to furnish the product(s) and/or service(s) it has proposed for demonstration within the time constraints of the preceding paragraph may result in rejection of that proposal. Failure of any product(s) and/or service(s) to meet the County's specified requirements during the demonstration may result in rejection of the vendor's proposal.

The successful demonstration of the vendor's product(s) and/or service(s) does not constitute acceptance by the County. Any product(s) and/or service(s) furnished by the vendor for the purposes of this demonstration must be identical in every respect to those which will be furnished if a contract results.

SECTION 2 – PROPOSAL SELECTION AND AWARD PROCESS

2.5 Evaluation Criteria

The proposals will be scored using the following criteria:

Reservation System and Online Permitting System proposals will be scored and ranked separately.

Proposal Requirements	Percent
Organizational capabilities & staff qualifications (Sections 4.4 & 4.5)	20%
Online Reservation System (Section 4.6)/ Online Permitting System (Section 4.7)	40%
Implementation & Configuration Services (Section 4.9)	5%
Training (Section 4.10)	5%
System Maintenance (Section 4.11)	5%
Project Plan & Timeline (Section 4.12)	5%
Cost	Percent
Cost (Section 4)	20%
Total	100%

2.6 Right to Reject Proposals and Negotiate Contract Terms

The County reserves the right to reject any and all proposals and to negotiate the terms of the contract, including the award amount, with the selected proposer prior to entering into a contract. If contract negotiations cannot be concluded successfully with the highest scoring proposer, the County may negotiate a contract with the next highest scoring proposer.

2.7 Award and Final Offers

The award will be granted in one of two ways. The award may be granted to the highest scoring responsive and responsible proposer. Alternatively, the highest scoring proposer or proposers may be requested to submit final and best offers. If final and best offers are requested, they will be evaluated against the stated criteria, scored and ranked. The award will then be granted to the highest scoring proposer.

2.8 Notification of Intent to Award

As a courtesy, the County may send a notification of award memo to responding vendors at the time of the award.

It is home to more than 500,000 residents, Wisconsin's State Capitol in the City of Madison, the world-class colleges and universities including the University of Wisconsin and Madison College, and more than 60 cities, villages, and towns. Dane County Parks welcomes over 2.5 million visitors annually and serves both the residents of Dane County and visitors from other counties, states and countries.

Current System

Dane County Parks (DCP) uses an online reservation and permit system known as reservedane (www.reservedane.com). This system was developed by a third-party vendor (Gov Logic) around 2006 and has been maintained by Dane County Information Management. In addition to reservedane, a mobile system is used for mainly permit purchases via square (<https://squareup.com/us/en>). This was developed and implemented by DCP in January 2017.

Dane County Parks also manages the Lussier Family Heritage Center facility which offers two banquet-sized rooms for reservations. Currently reservations are booked by DCP staff who manually enter reservations in an Outlook calendar for each room. Payments are taken by DCP staff via the square application.

Introduction

Dane County Information Management has two direction statements that help to govern the acquisition of hardware and software for the county. They are:

- Acquire hardware and software, which rank among the leaders in the industry, as balanced by their compatibility with Dane County's infrastructure, and by the resources needed for support.
- Implement application software which meets our customers' needs, as balanced by their compatibility with Dane County's infrastructure, and by the resources needed for support.

To this end Dane County Information Management has defined a fairly narrow, mainstream set of hardware/software that are supported on the county network (see spreadsheet attached).

Network Infrastructure

Dane County uses Dell hardware for all network infrastructure, with the exception of wireless access points and controllers, which are provided by Cisco Systems.

The primary network protocol used by Dane County is TCP/IP over Ethernet. Standard network speeds on Dane County's network are 10GB on the network backbone and 100Mb to all workstations on the LAN. The network backbone is connected via fiber-optic cable, with 1GB and 10GB speeds.

Dane County uses Citrix Xen Apps and Citrix Xen Desktop as its primary application delivery methods. It is the expectation that all applications should work in a shared user environment.

Dane County currently has approximately 500 Dell workstations, and 1,400 Dell Wyse terminals. The county additionally has approximately 2,000 Mitel phones. Most workstations and terminals are connected to the network via the 100Mb network switch in the IP Phone.

Lead-time for new network connections is 30 days minimum. New connections that require high-speed fiber optic cable may require significantly more lead-time. New wireless access points that need to be added to the county network would also require significant more lead-time to ensure that the access is secure and to build the required infrastructure.

Servers

Dane county operates a VMware ESX virtual server environment on which all Microsoft product based. Linux servers and virtual appliances run as guest. The policy is that all servers will be run as VM guest, unless justification as to why a physical sever is needed is submitted and approved by the Dane County Division of Information Management at least 60 days in advance of when the server is needed.

A native Windows 2016 Active Directory domain is the primary directory service on the county network. Whenever possible, applications should be integrated with active directory for authentication.

Microsoft SQL Server 2016 is the primary backend DBMSs, however other DBMS platforms would be allowed if support is provided by the vendor. If the county needs to purchase the required system software (OS, SQL, IIS, etc.), the required system configuration should be given to the Information Management team no later than 30 days in advance so that licenses can be ordered and system security can be reviewed.

SECTION 8 – DANE COUNTY IT INFRASTRUCTURE

Microsoft Exchange 2016 is the supported e-mail/messaging platform for the Dane County. Any applications or systems that require e-mail connectivity or integration should interoperate with Microsoft Exchange 2016.

Storage

Dane County uses Dell Compellent along with local storage as required for the storing of data. Access to the data is accomplished using the iSCSI and/or Microsoft CIFS protocol or locally defined drives.

Data is replicated to Dane County's disaster recovery site utilizing the replication software provided by the SAN vendor. Data is backed up utilizing Comvault's data protection software.

Desktop Workstations

Dane County uses Dell workstations and laptops exclusively for all desktops and laptops.

All new PC's and laptops are being deployed with Windows 10. The county uses the Microsoft suite of Microsoft Office productivity applications, Currently Microsoft Office 2016 with no plans at this time of moving to Office 365.

Mobile Devices

Smart Phones and Tablets – Dane County supports any smart phone or tablet that is County owned and has an iOS or Android operating system installed. Network access is limited and a request for access must be submitted to Information Management no later than 30 days before the access is needed. All mobile devices are required to be setup by Dane County Technical staff if access to County network resources is required.

VoIP Phones

Dane County has an extensive network of VoIP phones utilizing Mitel Phones and controllers.
